Off the Beaten Path African Destinations to Visit in 2020!

Africa is a gorgeous continent with scenery and wildlife like nowhere else on earth.

Here are five destinations which you may not have considered.

Liwonde National Park, Malawi. Liwonde is a true conservation success story. In recent years, leopard and lion have been reintroduced to the park.

Kakum National Park, Ghana. Western Africa is a lesser visited part of Africa. Kakum protects an area of rainforest, home to endangered mammals such as forest elephants.

Lake Retba, Senegal. This pink lake is another reason to visit West Africa. The lake is not harmful to humans or animals in any way, so feel free to dive into the lake.

Mgahinga National Park, Uganda. An extraordinary park full of gorillas and other extraordinary wildlife. There are 3 inactive volcanoes at the park.

Hwange National Park, Zimbabwe. Home to over 100 mammal species, including leopards & lions. Also, you can see ruins from the 18th century.
