

Ntaba African Safaris

2021 is the year to visit Vic Falls!

It's time to start thinking about your next trip! After the last 12 months, you deserve a vacation.

One destination that we think you won't want to miss in 2021 is Victoria Falls.

Last month, Vic Falls hit its highest peak in years for the month of February following heavy rains that have pounded major catchment areas of the Zambezi River in parts of the SADC region.

What does this mean for the Falls?

More rain means greater volumes of water flowing over the world's largest waterfall. Which means a more awe-inspiring sight for you.
